

24 L LEO CLUBS

2025-2026 Report

Two online training courses were held for the Leos and their sponsors this year. The first was a Leo Club officer training on September 10, 2025, by Zoom. The training covered the important aspects of each office that a Leo Club might have. The second, a Leo Summit, was held on March 19, 2026. This event allowed Leos to talk over their successes and challenges and to compare notes with each other. It was especially gratifying to hear the Leos talk about their favorite projects.

The 24 L Leo Advisor also talked to Lions about organizing Leo Clubs at the Fall Conference.

The 2025-2026 24 L Directory listed 19 Leo Clubs in the district. Considerable time and effort were put into determining if each of these clubs was still functioning and to establish communication. Often emails and voice mails were left unanswered or not returned. While some Leo Clubs have ceased meeting, usually due to the lack of a faculty sponsor, other clubs have been organized. In either case, there is certain paperwork to be submitted to LCI, which seems to slow down the process of either starting or formally closing a Leo Club.
